LOGINE GHANNAM

PROFILE

Recent Computer Science graduate with solid skills in full-stack development, particularly in React and Laravel. Skilled in building front-end and back-end components for web applications, demonstrated through comprehensive academic projects. Seeking a role that offers the opportunity to learn from experienced team members and further develop my technical skills, while contributing to successful project outcomes.

EDUCATION

B.S. Computer Science
Lebanese International University
Oct 2021 – May 2024
Saida
GPA: 3.81/4.0
Awards:

- Dean's List
- President List, Fall 2023-2024

COURSES

- Machine learning **Oct 2023**

I've studied Machine Learning, focusing on supervised models like logistic regression and linear regression, as well as unsupervised models including random forest and decision trees. Proficient in Python for data manipulation and algorithm implementation, I found the experience both engaging and insightful.

- web Programming **Feb 2023**

Specializing in responsive web development using HTML, CSS, and Bootstrap, I ensure cross-device compatibility. Proficient in PHP for server-side scripting and MySQL for efficient database management, I enhance web application functionality and interactivity, creating dynamic, user-friendly websites that meet modern standards

- Data Structures and Algorithms **Feb 2023**

Studied core data structures (arrays, linked lists, trees) and algorithms (sorting, searching). Focused on optimizing code performance and problem-solving skills.

CERTIFICATE

Certificate is available upon request.
